COUNCIL FAVORS RESURFACING OF THOROUGHFARES

But Claims Improvement of Main and Center-Sts Must Be Postponed Year

OFFICIALS EXPRESS VIEWS

Says City's Bonded Debt Must First Be Materially Reduced; Considering Proposal

Members of City Council and City Solicitor Grant F Mouser Jr are heartily in favor of resurfacing Main and Center sts but not until the city's bonded indebtedness is materially decreased

This was revealed today in interviews

This improvement is being urged by the Marion Real Estate Board and the Marion Kiwanis Club

Solicitor Mouser said that council had for some time been considering the resurfacing of these two streets in contemplation of starting the work next spring

Under the present law Mouser stated it will be necessary to wait until after March 1 1927 to sell the city's portion of bonds for this purpose The law provides that we can issue general bonds for public improvements up to nine tenths of the amount that the general bonded indebtedness created without a vote of the people has been reduced during a current year

Impossible This Year

In view of the fact that bonds will be issued this fall to approximately $270 000 as the city's portion in resurfacing Columbus st and Johnson st it will be impossible to issue bonds this year for the resurfacing of Center st

Tom S Cathers City Engineer has been at work for the past three months obtaining data and preparing estimates on the cost of resurfacing W Center st It is conservatively estimated that the city's portion which will be 30 per cent of the resurfacing will run approximately $60 000

Legislation must be started for the resurfacing This will consist of a resolution determining the necessity of resurfacing and an ordinance determining to proceed with the resurfacing A publication for three consecutive weeks

STATE HOLDS TRIO TO PROVE MURDER STORY

Three New Witnesses Expected To Back Up Hall-Mills Evidence

Somerville N J Aug 14—Three new witnesses were being held by heads of the state today to support the testimony of Mrs Jane Gibson the physician that she saw the murders of the Rev Edward W Hall and Mrs Eleanor Mills near New Brunswick

Willard Straub 27, of New Brunswick the station agent in the hole," was being held in default of $1000 bail as a material witness

Four years' hiding of vital knowledge of the murders to prevent a young woman becoming involved in the inquiry is the role said to have been played by Straub Straub and the young woman were said to have stood within 75 feet of the rubbagie tree under which the pastor and his 'soul mate' were shot to death

The other witnesses are Mr and Mrs Morris Lisler of Highland Park N J, reported to have been motoring near the murder scene on the night of the double tragedy

FIND NOTED WALKER, MISSING FOUR DAYS

Weston, Famous Pedestrian, Discovered in Brooklyn by Patrolman

New York, Aug 14—Edward P. Weston, nationally known pedestrian who had been missing from his home in Philadelphia since Tuesday, was located in Brooklyn today.

Though exposed to the storms and rains of the last four days, the 67-year-old man was none the worse for his experience, a physical examination revealed.

Weston was found sitting on a doorstep on Nostrum av in Brooklyn by Patrolman Arthur Brown. He was hatless and wore a blue suit. Brown recognized the old man by his pictures and questioned him Weston admitted his identity and said he was on his way to the home of two granddaughters both married, but that he had forgotten their married names. He arrived in Brooklyn from Philadelphia by motor bus, he said, but had hesitated in the open since Tuesday.

The walker was taken to the Gates st police station and given food. He was ravenously hungry. He will be taken back to his home.

In 1925 Weston, then 66 years old, walked from Philadelphia to New York. He lives with his daughter, Mrs. Hannah L. O'Hagan in Philadelphia.

PLANS TO REDISTRICT CITY NEARLY COMPLETE

City To Be Divided into Seven Wards, Effective at Next Election

Legislation providing for the redistricting of Marion into seven wards, as required by law will be drafted and presented to City Council for passage within the next six weeks

This announcement was made today by City Solicitor Grant F Mouser, Jr., who with City Engineer Tom S Cathers and members of city council has been working on preliminary plans for the redistricting

At present Marion has but four wards. Under the laws of Ohio governing municipalities a city with a population of 30,000 or more must have seven wards or councilmanic districts.

The redistricting will become effective at the next city election in 1927. At that time three new councilmen for the additional wards will be named.

Death Battle of Mastodon and Dinosaur Revealed in Bones Dug Up on Ohio Farm

JOHNSTOWN, Aug. 14—Thousands of years ago two colossal mastodons engaged in a death struggle which ended fatally for each, both, dying on the scene now the farm of Friend Buck about four miles from here.

Evidences of the titantic battle were being unearthed here today, by a small army of volunteer excavators working under the supervision of "archaeological" experts from the Ohio State Museum at Columbus.

Professor H B Goodwin, in charge of disinterring the skeleton of a pre-historic specimen—believed to be a dinosaur—yesterday found the remains of another mastodon in front of the skull of the giant, being unearthed This evidence and the fact that the skull already dug up shows a huge cavity as if caused by the tusks of an adversary, led him to express the belief that the bones of two animals will be found as they probably had died while locked together in battle.

That part of the skeleton now exposed to view shows it to be in an amazing state of preservation. Although one of the tusks—measuring nearly 16 inches in thickness—was broken by a shovel, the other bones are being taken out intact. Experts believe that a complete skeleton will be found Only a half dozen of these have ever been recovered

Thousands Visit Farm

A crowd of 5,000 persons, had visited the farm of Friend Buck up to noon today to view the bones of the gigantic mastodon; the head and shoulders of which are now visible.

Scientists from many parts of the state were aiding in digging a hole 50 feet wide while now has reached a depth of 12 feet.

Buck has ceased his farm work and is acting as [illegible] of the excavations.

These new-type Willys-Knight cars offer

7 Major Principles of European Design

Why this new "70" Willys Knight Six has stepped into first place in sales in the shortest time on record

WHEN the new '70' Willys-Knight Six was first announced 7 months ago, we told you that here was a new era car . . . modernly designed, modernly engineered . .

That it would out perform anything that had ever been built of its size or type or price class

We told you it was the liveliest car of its price ever built

That it presented an order of efficiency and economy all its own

We told you about its European-type mechanical 4 wheel brakes—the same type of braking system you find on 97% of foreign cars—that would give you a new conception of quick stopping

We told you that, with more compact external dimensions the new "70" Willys Knight Six provided more inside room than any other car of its wheelbase you had ever driven.

That was 7 months ago

What happened in the interval?

In the first thirty days, the new '70' Willys-Knight Six was the talk of America.

A new order of performance had come . .

Modern engineering had provided a new sensation for the jaded motoring palate

Within 60 days the new "70" Willys-Knight Six had swept this country from one end to the other

It had arrived . .

HT TO BE E LATTER OF MONTH

5 Horsepower Motors d Aircraft to Paris Goal

FIELD Long Island —Outgrowing the hangar has been built the great plane made for Captain projected New York Paris one out into the open at its shakedown trial

In August if the the hopes of the design the huge plane will trial on baked field and with its horsepower motors roaring it full voice lift off and head for Le Bourget the airport of Paris

Igor Sikorsky famous Russian aero designer and his faithful crew of Russian refugees have brought all of the training and skill and ambitions to the job of creating this ship It should turn—but never is that thing about that The expedition's success means the assured future of men and leader And they are confident

Sikorsky with Caproni of Italy the outstanding pioneer in the creation of huge multiple engined planes While the new ship is the last word in aerodynamic practice it bears the character istic Sikorsky marks—chief of which is a surprising degree of neatness in spite of huge dimensions

Has Three Radial Engines

The big plane has a wing spat of 101 feet and is equipped with three radial engines of 400 horsepower each which were designed by the Gnome Rhone Jupiter combination especially for Captain Fonck With their composition metal propeller they have been installed as tractor engines One in the nose of the fuselage in front of the pilots cockpit and the others in the orthodox method have been placed between the wings as port and starboard motors

The typically the total of 1 2 3 horsepower should give the S 35 the official designation of this craft an air speed of 100 miles an hour This according to Sikorsky is figured with the maximum load of gasoline and oil and essential gear just as the plane will take off on its flight across the ocean The air speed should increase as the load becomes lighter and lighter so that the end of their flight will be finished at a maximum speed

All measurements have been exactly made in an effort to make the load as light as possible But with all the economy practiced the plane will take off weighing a full 12 tons 24 000 pounds of which will be gasoline

$25 000 Offered

The flight is long, made for a $25 000 prize offered by Raymond Orteig a New York hotel man of French extraction who some five years ago offered the money to the flyer who would first fly from Paris to New York He later renewed the offer and revised the provisions concerning the direction of the flight so that it could be made either way because of the elements that gravitate against a flight from east to west

The plane is equipped with regular carriage for land work The only provision for a forced landing being made is the storing of light air sacks in the bottom of the fuselage It is calculated that these with the aid of the large wings will keep the craft afloat for many hours in the event of a mishap and a forced alighting at sea

A small auxiliar landing gear of aluminum wheels is provided for the take off on this end to relieve the excessive strain of the 24 000 pounds from the main under carriage when the engines are put full get for under way for the long hop

To Drop Extra Carriage

This extra under carriage will be dropped as soon as possible by a special device being arranged that will let it fall when the plane is assisted that he will not be forced to return with his full load The dropping of this frame work will materially reduce the head resistance the machine will increase its flying speed The main under carriage will be more than sufficient for landing at the other end of the trip when the plane will be light

The proposed course of the flight which it may be altered if this is possible will be over either Halifax or Yarmouth N S Boston Mass and Cape Elizabeth Me and to Cape Sable N S Halifax and Cape Race N F Here the fliers will get their last glimpse of the Western Hemisphere as they fade away in the fog over the Grand Banks as they head for the east Ireland will be the point of contact in the far distant journey

Their course lies over Ireland during the most critical shifting point of France as they head for Le Bourget the aviation field just outside Paris the end of their trans Atlantic flight The spirit of adventure Fame or bust

Forty Hours for Flight

While it is stated that the flight will take between 30 and 40 hours it is believed that through fuel economy and use of approximately 471 miles the weather will play no small part in the success or failure of the venture A flight of 1 890 miles an hour retracing the progress of the flight will be run the actual mileage over Europe given the greatly reduced from a half to a third of the theoretical speed the air speed over the sea The great speed in the air over differs from the ship speed by minus the wind In tracking from West to East at this season of the year the prevailing winds will be all in favor for better time to be made than has been figured

Radio compasses and direction finding apparatus will together with some newly developed instruments form the guiding gear by which the fliers their position regardless of visibility and weather conditions The flight is so planned that it will always have a positive check and be terminated in daylight

WARNER CHOSEN PARTY CHIEF BY UNANIMOUS VOTE

Rumored Opposition to Marion Man Fails To Develop in Committee

Election of all officers of the Republican state central committee at its meeting in Columbus Friday was made unanimous by the 105 members in attendance. These had been reported of possible opposition for Fred W. Warner of Marion for reelection to the chairmanship with Charles H. Erkenbrecher of Cincinnati mentioned as prospective candidate. Frederick's name was not presented however.

Following the organization of the new committee which had been elected Tuesday Myers Y. Cooper gubernatorial nominee James G. Mills theretofore secretary of state, Bert R. Fink of Columbus committeeman and Edward Jurney attorney general at the time selected the committee's executive officers for the ensuing campaign.

Mr. Cooper expressed his appreciation of the support of the organization and stated that he had received assurances from practically every candidate on the ticket that he would have the support of the party and all have pledged themselves to work wholeheartedly in behalf of the ticket.

Other officers elected were: Secretary Mr. Cooper; treasurer Mr. Fink.

Issue Convention Call

Before leaving the committee decided that the state convention for the nomination of candidates for governor and other state officers will be held in Columbus on Tuesday, August 21. The committee also authorized the chairman to call the committee together at any time he deems necessary to transact business.

The members of the executive committee, all of whom were present at the meeting, will be entertained at a luncheon at the Deshler-Wallick hotel at noon.

At the next meeting of the committee plans for the district conferences preceding the convention will be discussed. The committee generally ratified the selection made by the committeemen of the district. In some instances committeemen were elected on the basis of who he was said to suit but as there were no contests the committee's action was unanimous.

Committee List

Members of the new committee are:

First district—P. Lincoln Mitchell Cincinnati

Second—A. F. Anderson Connersville

rected against a person totally interested in the investigation were that the murder case should not reach a Stark County grand jury until publicity on the crime and the murder star had died a natural death said Roach in substance

Know Owner of Gun

The story handled secure of forteen manufacture reported as having been used in the murder plated an important part in the assassination according to Roach and its owner was to stay declared by the Chicago attorney as having participated in the crime

What now might close to that resolve—the owner of which is known who according to evidence I have gleaned was one of the trigger men Roach stated

Evidence in my possession that would have been gathered and submitted to a special grand jury days ago by Stark County authorities remains untouched Roach emphatically stated

Is Patrick E McDermott the man wanted for questioning in connection with this murder essential to the ultimate solution he was asked

Absolutely not Roach replied

Would you be willing if called to go before a grand jury and reiterate the statements you have made and submit to the jurors the evidence you say you have gathered? he was further questioned

Ready to Testify

Yes answered the square jawed man who convicted scores of Indiana officials on charges of law violation and bribery

Is there any way in your capacity as advisory counsel to the acting chief of police that would legally enable you to bring about the arrests of the murderers of Mellett or that you could properly present the case to a grand jury

None Roach replied

It was pointed out to the Chicago investigator that Governor Vic Donahey has been quoted as saying that he was not empowered to act in the Mellett case except should a liquor conspiracy develop that would involve city or county officials

The governor will have plenty of legal room for definite action Roach said

Regarding the conference that Judge H C Pontius former attorney of the slain publisher and a mystery witness held with District Attorney A J Bernsteen Cleveland yesterday Roach today declared that if evidence revealed there is acted upon one of the most exceptional revelations in criminal history should be uncovered

Roach repeatedly asserted his complete confidence in Bernsteen and his best assistant Miles F Evans declaring that they will see this case through to the bitter end regardless of political and moneyed factions

Summary of Evidence

In brief the evidence which Roach claimed to have gathered included according to his statements today the following alleged facts

That several Canton policemen will eventually be linked with the actual crime

That a Canton detective drove a liquor truck from Cleveland to Canton during the inception of the murder plot and that Red McDermott alleged trigger man accompanied the detective on the liquor truck trip here

That despite the investigation carried on here during the last four weeks the lawless element has flaunted the flag of scorn in the face of the police department by continuing unabated its illegitimate activities

That a huge whisky and narcotic bootleg ring evidently a part of a Pittsburgh Cleveland Toledo Detroit and Chicago conspiracy existed here presumably under the protection of certain law enforcement agencies

While Roach was making these startling disclosures operatives under Orin Slater Cincinnati detective in charge of the investigation were admittedly marking time until McDermott is captured

County Prosecutor C B McClintock was preparing to go before the grand jury which is scheduled to meet Monday He has subpoenaed eight newspapermen whom he hopes will throw some light on alleged affidavits which were claimed to have connected several prominent persons with purchases of whisky

PROSECUTOR TO CALL FOR STATE AID

Canton Aug 14—County Prosecutor C B McClintock will ask Attorney General C C Crabbe for a special prosecutor to assist him in presenting the murder case of Don R Mellett before a Stark County grand jury the week of Aug 30 the county officials said today

If there is testimony available to show who killed Mellett we most certainly want it McClintock asserted

The grand jury investigation will be wide open to all investigators who claim to possess evidence in the crime he added

Federal state county and city investigators will undoubtedly be called before the jury the prosecutor indicated Witnesses and persons who are claimed to have information involving the murderers will be subpoenaed in whole sale lots it was declared by those closest to the investigation

Oppose Federal Aid

The Canton Daily News says that it was reported today that Prosecutor McClintock was summoned Friday to the office of Attorney George H Clark former Justice of the Ohio Supreme Court who advised against federal participation in the probe

The Daily News also says that the pressure which is being brought to bear upon McClintock to induce him to regard lightly the evidence produced by Joseph R Roach and others was the subject of discussion Thursday at a conference in Cleveland between McClintock and A E Bernsteen, district attorney it was learned today

R. C. OWEN FILES ANSWER TO FORECLOSURE SUIT

Also Brings Counter Action Asking Judgment Against Two Concerns

Robert C Owen 34 Silver st today filed an answer and cross petition in Common Pleas Court in the foreclosure suit of The Credit Loan & Discount Co against Owen and others

The Discount company is seeking the foreclosure of a mortgage deed of $850

Owen charges he purchased a truck from Hoch Motor Sales Co in 1924 and a portion on the machine and gave a note for the remainder He alleges that he paid $405 31 on the note

In May 1926 according to his answer the truck was seized by the Credit Loan & Discount Co and sold to Hoch Motor Sales Co for $100 that amount being placed as credit on the note

Owen asserts that the amount given him for the machine was far below the actual value and that Hoch Motor Sales Co later sold the truck to a third party for $650 He asks judgment against the motor sales company and the discount company

of the estimated costs of the work and finally a bond issue which must be authorized for thirty days previous to the sale of the bonds is also necessary

In view of the referendum period of 30 days between the resolution of necessity and the ordinance determining to proceed and the three weeks advertisement of the estimates it can be seen that it will be impossible to do this work before the winter season sets in even though the bonded debt reduction had been made in addition to the large improvement program

Other members of council expressed themselves in a similar manner

Councilmen's Views

Emery F Murphy president of council said I am heartily in favor of the paving of Center and Main sts but the work must wait for another year until the city has the money with which to begin the work

R F Prettyman chairman of the finance committee I am not in favor of the resurfacing of these streets at this time and not until the bonded indebtedness of the city is decreased Taxes can't be lowered as long as the bonded indebtedness is being raised One debt should be materially decreased before another is assumed Although there is no question in my mind as to the necessity for paving the streets the bonded debt should be first reduced

Charles Schmidt I am in favor of resurfacing Main and Center sts but it would not be a wise move at the present time The bonded indebtedness of the city should first be materially decreased

Tom J Mead chairman of the street and alley committee I am in favor of resurfacing the streets and widening them But the cost of this work according to an estimate by the city engineer is $100 000 from the Hocking Valley tracks to Oak st Of this amount the city will pay 850 000 As badly as the streets need to be improved they will have to wait until the bonded debt is decreased

J A Wilkins I am in favor of resurfacing Center and Main sts if we have the money to go ahead with the work Owing to the present bonded debt of the city however it will be necessary to wait until the spring of 1927 No one is more anxious than I to have this work completed There is no question about the necessity of it

Daily Proverb—"The righteous find peace when the wicked feel torment."

Anyway, those Pennsylvania and Illinois people might have vindicated the friends of Mr. Newberry without making them look like pikers.

The motor menace in itself is bad enough, but here we read that 6,000,000,000 bananas were imported into this country in 1925. Honestly, the fates seem arrayed against us true aristocrats.

Mr. Pinchot is reported to have intimated that he may run as an independent candidate for senator. Whether or not he makes the reported intimation good, Gif. may always be depended upon to spill the beans and muss things up politically to the best of his ability.

Maybe we are suggesting too much, but wouldn't it be remarkable should Gertrude Ederle give up professional swimming, get married and make a real good, wholesome wife for somebody?

The Zanesville Times Recorder remarks that "few things make a woman happier than she is when she can get her husband to waste $10 worth of time doing seventy-five cents' worth of work around the house." Our guess it that a husband who can meet those specifications is either a bootlegger or a mighty poor workman.

If the idea behind their recent announcement was to throw a scare into us, it strikes us that the scientists fell down awfully in selecting the present as the psychological time for telling us that another ice age is approaching.

According to a St. Louis pastor, the vexing problem of the church is that of finances. Strange, when one stops to think how much experience in meeting that vexation ninety-five per cent. of our church congregations have had!

In the light of the fact that a guard at the Jackie Coogan home was seriously wounded and the further and somewhat more convincing fact that the alleged assailant of the guard committed suicide, we will just about have to acquit Jackie's press agent of pulling a publicity stunt. It's hardly possible that anybody is going to take his life just to make good a press agent's story, no matter how persuasive such a publicity man may be.

So Senator Frank B. Willis was the only candidate of either party who carried every county in the recent primary! Maybe the drys are a bit more active than a lot of us here in Ohio have been figuring.

Seventy-five thousand dollars' worth of jewelry was stolen from the New Jersey home of William C. Durant, the automobile manufacturer, recently. If robbers ever broke in and stole $75,000 worth of jewelry from our home it would come mighty near exhausting the assortment we keep laying around loose.

The Johnstown correspondent who sent out the story that the skeleton of "a prehistoric mastodon" with tusks ten feet long had been discovered near there and closed with the statement that "from the description of the find, experts believe that the skeleton is that of a dinosaur" may be credited with having discovered something absolutely new and unique in the way of a dinosaur.

Two Marion Men Honored.

Two citizens of Marion were highly honored this week, one through the vote of the members of his party in one of the largest judicial districts in the state and the other as the choice of his party throughout the state as the head of its central committee.

Last Tuesday Charles L. Justice, Judge of the local court of common pleas, was nominated by the Democracy of the Third appellate judicial district as its nominee for judge of the court of appeals. Judge Justice carried twelve of the sixteen counties of the district, his majority in the district being in excess of 3,000, which is splendid attestation of his popularity—a popularity well deserved—and a tribute to him as lawyer, jurist and man.

The selection of Fred W. Warner to succeed himself as head of the Republican state central committee speaks in no uncertain way of the appreciation of his party. He has won and retained the esteem and respect of the rank and file of the state party just as he has won and retained the respect of his people here at home as a citizen and lawyer.

Sometimes we are inclined to lean to the view that people do not appreciate at their full value the young men who have grown up among them; that it is only when such young men go away from home and make impressions upon larger fields that the fact is brought to their home people that such young men are "getting on." It is because we have experienced this feeling time and again that we are always glad to break away from what we believe is the general trend and voice appreciation of our rising young home people. And this is why we are especially glad to offer our congratulations to the two who have received political honors outsine their home city this week.

Two New Local Industries.

The announcement in Friday's Star that two new local industries will begin operations next week made very pleasing reading. It is good to know that the one-time plant of what was the Fairbanks Steam Shovel company, which has been closed for other than repair work for so long, is so soon again to house two going concerns. A thriving city can not afford to have idle plants. In fact, if plants are idle it is not an unfair deduction that the city in which they are located is not thriving. Happily for Marion, the reoccupation of this plant will remove the possibility of reproach in this respect.

We do not pretend to know what may be the possibilities ahead of the two new industries—the Alloy Cast Steel company and the General Excavator company—but we do know the people interested in them, and it doesn't necessitate any shrewd reasoning to reach the conclusion that, if there were not excellent prospects ahead of the two companies, those at the head of them would never have been members of their organizations.

The new industries are owned and controlled by what may be termed the Owens interests and Clifford A. Owens, it has been announced, will be the active head of both of them. We are inclined to give credit to the man who makes two blades of grass grow where but one grew before. But the Owenses have the habit of doing a lot better than that. They seem to possess the happy faculty of making not two, but many, dollars grow where none ever grew before.

The plant—or plants, if the reader cares to have it put that way—will be operated at only fifty per cent of its capacity in the immediate future, but, as we have stated heretofore, the people at the head of them are not of the kind to rest content with production possibilities unemployed if there is a chance consistent with good business principles to keep them at capacity production profitably.

We are pleased that the two new industries are so soon to begin operation and production. As going concerns, they will mean much to our city. We have a firm conviction that they will thrive and grow and that their prosperity will be reflected to the profit of our citizenship. But what pleases us most is the confidence which the public seems to have in their permanency as valuable additions to the local industrial field. Perhaps this is the greatest compliment which could be paid to the people at the head of them.

The Cuyahoga county board of revision has decided to make a ten per cent. reduction in all the county's land valuations. It means a cut of from $86,000,000 to $90,000,000 and a loss of about $1,700,000 to Cleveland's operating funds. We are prepared to believe almost any old thing after an innovation like this.

We do not know what is the course of procedure up there, but it seems to us that it's about time for Chicago to list her gang murders among "deaths from natural causes."

A more or less well-known actress who is greatly imbued by a desire to get a little publicity, without financial outlay, says she will never again wear hose, not simply because bare legs are cooler and healthier, but chiefly because she can save $700 every four months on stockings. She must give 'em away as souvenirs.

The Canton News says "a quick glance at heat prostration statistics leads to the belief that they are fewer in towns where it is hardest to get a drink," which is decidedly queer, as one might naturally figure that the excessive chaping about after the drink would have a tendency to cause heat prostration if anything would.

The wires told us yesterday that Rickard may have talked himself out of a heavy bout. It's possible. But it may be noted that Mr. Dempsey has been good enough to refrain from criticizing him on that score.

While the average editor naturally feels complimented when the gentlemanly sales people send him literature and invite him to view their displays of cars ranging upward in price from $4,500, it is simply impossible for him not to feel a pang of regret that really bright people can be so terribly deceived.

Mr. Grantland Rice, an eminent authority on sports, recently wrote at length on Jack Dempsey's fighting ability. Off hand, we assume that Grantland was merely endeavoring to bring ancient history up to date.

The splendor of Tut's tomb is said to be rivaled by that of a royal Greek tomb recently opened near the ancient city of Asine on the southern shores of the Peloponnesian peninsula. We may be a trifle obstuse, but to save us we are unable to figure out what right or business we of today have in despoiling the dead of ages past.

At the present rate of increase, it should not be long till the newspapers of the land eliminate the use of the word, poison, before liquor, taking for grauted that readers will understand that any other kind is so exceptional as to be negligible.

Poems That Live.

"SONG FROM A DRAMA."

Thou art mine, thou hast given the word:
Close, close in my arms thou art clinging:
Alone for my ear thou art singing
A song which no stranger hath heard:
But afar from me yet, like a bird,
Thy soul, in some region unstirred,
On its mystical circuit is winging

Thou art mine, I have made thee mine own,
Heart-forth we are mingled forever:
But in vain, all in vain, I endeavor—
Though toured thee my garlands are thrown,
And thou yieldest thy lips and thy zone—
To master the spell that alone
My hold on thy being can sever.

Thou art mine, thou hast come unto me,
But thy soul, when I strive to be near it—
The innermost fold of thy spirit—
Is as far from my grasp, is as free,
As the stars from the mountain-tops be,
As the pearl in the depths of the sea,
From the penniless king that would wear it.

Men Take T. B. Easier Than Girls.

BY ROYAL S. COPELAND, M. D.
United States Senator from New York, Former Commissioner of Health, New York City.

There is one disease which is universally dreaded. Everybody is afraid of tuberculosis.

I am glad to tell you that real progress is being made in the wiping out of the "white plague." Instead of being the chief cause of death, as it was twenty years ago, it has dropped down the line of fatal diseases.

It is a common thing to scold our women folks because of the thinness of their clothes and their exposure to the elements. But in spite of their habits they are not nearly so susceptible to tuberculosis as men are. The records of the New York City department of health show that for the last five years this disease was fatal to fifty per cent. more men than women.

There is a really remarkable decrease in deaths from tuberculosis in women past thirty. On the other hand, half of the fatal cases in men occur in the age group between the ages of thirty-five and fifty. The report I saw indicated that between the ages of thirty-five and forty-five, twice as many men as women die. Three times as many die between fifty-five and sixty.

It is in the active and productive years that men are attacked. At the very time they should be most useful they are taken away by tuberculosis.

The chief reason for this great percentage of fatalities among men at this period of life, is the health hazards of so many occupations they follow. Working in dust, dirt, irritating fumes or smoke creates a condition which may lead to tuberculosis.

Of course these factors are not sufficient. Dust alone could never give anybody tuberculosis. But when dust or vapors are constantly breathed into the lungs, irritation of the delicate tissues is produced, and the way is prepared for infection with the germs of the disease.

No one of us can escape contact with disease germs. They are always with us. Somebody who has tuberculosis expectorates on the sidewalk. The sputum dries and pretty soon the wind picks up the infectious material, blows it through the air, to be breathed in by some passing person.

Strong, healthy, normal tissues are not affected by germs. It is only when the tissues are irritated and lacking in resistance that infection takes place. The worker in bad quarters is preparing the soil for such infection.

Since men work as cabinet makers, type setters, lithographers, carriages painters, millers, blacksmiths, tobermen, wool sorters and are employed in other capacities in dusty, dirty, smoky or otherwise contaminated places, is one great reason why they are more subject than women to this disease.

Another factor is the fact that men are driven back to work many times before they have recovered from colds and fever. Their tissues are not ready to face the dangers of their work places.

ANSWERS TO HEALTH QUERIES.

"CONSTANT READER." Q—I have a clear skin, but when I use powder on my nose it becomes scaly and rough. Please advise me what causes this.

A.—Probably your skin is very sensitive. Use a good cold cream at night and use only the best face powder.

* * *

MISS M. S. Q—What causes my mother to see black specks before her eyes?

A.—This trouble may be due to poor circulation. Try to have her build up her general health by eating good nourishing foods and keeping the intestinal tract clear. It would be advisable for your mother to have her eyes examined.

* * *

R. L. Q.—What causes one to scream while asleep at night?

A.—This is usually due to some intestinal disturbance or nervousness. Avoid poor elimination. For further particulars send self-addressed, stamped envelope and repeat your question.

* * *

E. S. Q.—What should a girl seventeen years of age, five feet five and a quarter inches tall, weigh? Will I grow taller?

2.—What causes dark circles under the eyes. It is not due to lack of sleep, and my eyes do not trouble me.

3.—Will exercise help to put color in my face?

A.—She should weigh about 126 pounds. You may grow until you are twenty-one.

2.—This may be due to poor elimination or a kidney condition.

3.—Yes.—Copyright, 1926.

Be thou my strong habitation, whereunto I may continually resort: Thou hast given commandment to save me: for thou are my rock and my fortress.—Psalm 71:3.

With the Paragraphers

Here's the Solution.

Crime's story might be shorter if sentences were longer—and served.—Wall Street Journal.

No Easy-Payment Plan for It.

Things have reached a point now where one can buy practically anything on easy payments, but a primary.—Detroit News.

Nothing Can Withstand Her.

The English channel might have known it would have to give up eventually when an American girl set out to conquer it.—Cincinnati Enquirer.

Practice Makes Perfect.

Another thing father can't understand is how son manages to save just enough gasoline in the tank to get the car into the garage.—Canton News.

Not a Reason in the World.

Oh well, when you come to think of it, why should most of the losers have been nominated, not to mention a good many of the winners? —Ohio State Journal.

"Works Out" Is Good.

A passing item suggests to us that the best technique of the present day hold-up is the "get-away." That works out offtimes.—St. Louis Globe-Democrat.

Well, Aren't We Growing Right Along?

One new millionaire paid a long price for a Louis XIV bed, but it was too small for him, so he sent it back and asked for a Louis XVI.—Chicago Herald and Examiner.

Might as Well Move On.

No girl should teach more than three years in one town. If she can't get a husband in that time, it's a waste of time to fish any longer.—Zanesville Times Recorder.

Who Wants Oats and Hay, Anyway?

The Berlin municipal horses get a three weeks holiday, with all the oats and hay they can eat. That's more than most human workers get.—Philadelphia Public Ledger.

There's Money in It.

Virtue has been known from ancient times to be its own reward, and in modern reform propaganda it appears to be fully as profitable as the vice it attacks.—Philadelphia Record.

Identified at Last.

There is a discussion about who invented or discovered the Charleston. Our memory isn't as good as it used to be, but we think it was St. Vitus.—Pittsburgh Chronicle-Telegraph.

The Height of Folly.

The Topeka Capital ascribes bravery to the man who will buy bootleg whisky. From the number of deaths reported from drinking the stuff it looks more like foolheadedness.—Newark American-Tribune

The Way of the "Uplift."

Somebody demands that in the interest of temperance such words as gin and ale be censored from the cross-word puzzles "A beverage" in three letters must hereafter be translated as "tea."—Cleveland Plain Dealer.

"It Can't Be Done."

Hyperbole is becoming a rather common fault of newspaper headwriters, but the one who headed a story, 'Broke Every Traffic Law on the Books,' went a bit too far. Even Methusaleh wouldn't have had the time to do that.—Detroit Free Press.

The Way of the World.

BY GROVE PATTERSON.

Osborne Wood, son of Major General Wood, is working in a plant at Evansville Indiana. He starts at 7 a. m., punches a time clock, wears a blue work shirt and gets $125 a month. He is learning the refrigerator business with the idea of becoming a salesman. Wood is said to have made and lost $500,000 in the stock market. He had rich and influential friends. They gave him so-called "tips." This should be a lesson to other young men who think they are "in the stock market." Of course it will not be a lesson.

One would think that people had lived on the earth long enough not to be so curious about each other. When the president tries to worship quietly in an obscure village church 500 tourists tug at the ropes to get into the place. Those that do get in steal the Bibles and hymn books. Folks are the commonest things found on the earth. There are plenty of them and to spare. Yet our interest in them overtops our interest in the vastly more unusual phenomena of nature.

John T. Benson, veteran zoo superintendent of a New England town, makes a wise observation. He says animal trainers make the best husbands. Snap the whip, if need be, he says, but let the sugar come afterward. Writers on domestic affairs for newspapers say it should be all sugar and no whip. What is your opinion?

Big colleges are doomed, in the ever-ready opinion of H. G. Wells. Schools are places where boys play football and go to decay, he says. Wells deals in extremes. Most writers do. There is too much emphasis on athletics in colleges and not enough on scholarship. That does not mean that colleges are doomed or that football is bad.

The old-fashioned housewife used to say: "A place for everything and everything in its place." That's as good a rule in thinking as in keeping house. We need balance. Even a man as great as Mr. Wells needs it.

Nobody will begrudge the king of England his two months' vacation with pay. Kings in the upset lands across the water need a rest now and then to gather up the frayed ends of their nerves. Their life is largely devoted to an effort to keep from getting a permanent vacation. That is wearing.

Twenty Years Ago.

This day was Tuesday.

The Waldo band ran an excursion to Cedar Point. Two hundred made up the excursion party.

S. Keil, a farmer residing south of Marion, placed on exhibition at the Fahey bank a cucumber raised by him weighing three pounds.

The Erie and Big Four got together and called off their excursion rate-cutting war.

The Wesley M. E. Sunday-school held a picnic at the fairground.

The report that there need be no fear of a sauerkraut famine, published a few days before locally, was confirmed by the state authorities in Columbus.

Hogs were selling from $6.45 to $6.50, turkeys for 12 cents and spring chickens from twelve to fourteen cents. Corn was selling from 45½ to 49⅝ and wheat from 73½ to seventy-four.

The Star reported that a son had been born to Mr. and Mrs. Frank Weber, of south Greenwood street, the day before.

Seeking a site for the new postoffice building, the committee in charge found that Marion realty was on the boom, the average price being asked being about five times the records showed the same property was returned for taxation.

Proved Expensive.

[Cleveland Plain Dealer]

State mill and elevator operation in North Dakota is proving an exceedingly expensive operation. For the first half of 1926 the state lost $1.50 on each of the 190,223 barrels of flour made in the state mill at Grand Forks. This deficit from operation for the first six months of this year, added to the accumulated operating losses of earlier years, brings the cost of state mill operations to the taxpayers of the state up to $1,100,000.

An operating deficit of this proportion probably explains in considerable measure the decline in the popularity of the Non-Partisan party in the Northwest, and the return to more conservative ideas about the relation of the state to industrial activities. The Northwest espoused non-partisanism with all its proposals for state industrial management because of the depressed condition of agriculture after the war, and because it was convinced that a larger return on effort and investment could be earned than through the private channels of production and distribution which it proposed to displace.

The experience of the last five years has disappointed its expectations. Successful management of industrial and commercial operations demanded a type of ability which the Non-Partisan league was unable to enlist. Employment by the state failed to bring out the high degree of managerial ability which ordinarily attends private enterprise, and the state industrial ventures suffered from mounting costs and operating deficits which even the most ardent advocates of state management and control became unwilling to assume as taxpayers.

The withdrawal of the state from its direct connections with industry has been in progress now for several years. A few years more and the program of the Non-Partisan league will be little more than an evidence of the reaction of the agricultural sections to the after-war depression.

Are No Illusions To Survive?

That Bozeman, Montana, rancher has taken all the "punch" out of cow punchers. According to his tell 'cowboys are ordinary human-beings more acquainted with a dishpan than a shootin' iron.—Boston Transcript.

What Do You Want To Know? Ask Haskin.

Be right. Here is a great information service that is free to every one. Write your question plainly and enclose two cents in stamps for return postage. Address the Marion Star Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. Why is it that the supreme court has to pay postage on its letters? Why doesn't it enjoy franking privileges like the other government departments? O. J.

A. The justices of the supreme court do enjoy the franking privilege when writing on official business. The clerk of the court handles most of the correspondence and his office is supported by fees paid by litigants and most of his correspondence is to litigants about their cases. The fees of the clerk are paid by litigants, and if the government were to grant the franking privilege on such matters it would amount to paying postage on private cases.

* * *

Q. What position did Matthew Henson hold with Admiral Peary? A. J. R.

A. Matthew Henson was Peary's colored servant. He was the only one of Peary's men who stayed with him on his perilous journeys. He went with Peary on the trips of 1898 and 1902, and had worked with Peary since 1884. He was as good a dog driver as an Eskimo and acted as watchman, sledge maker and camp stove-maker under Peary's supervision. It is said that he was more Eskimo than African. The government has not bestowed any honor upon Henson for his work with Peary.

* * *

Q. Does the superintendent of a poor farm have a right to open the mail of inmates? G. C.

A. The postoffice department says that the sealed mail of persons living in a county home is as fully protected from unlawful opening as the mail of any other citizens. The mere fact that the inmates are so unfortunate as to have been compelled to seek shelter in an institution maintained for the indigent gives the superintendent no license to interfere with their letters.

* * *

Q. How many automobile camps are there? L. L. F.

A. The following is the number of camps of recognized standing by states: Town camps, 4,062; national forest camps, 1,000; national park camps, 300; grand total, 5,362.

* * *

Q. Why is the Latin Quarter of Paris so-called? S. N. W.

A. This is the section of the city in which the University of Paris is situated. Education in the university was formerly given in Latin, and the students used to go about the town singing their songs in Latin thus giving rise to the name which persists to the present day.

* * *

Q. What country has the most miles of telephone wire in proportion to the population? C. E.

A. Canada stands first in this respect having 3.4 mile to the 100 of population. United States stands first in number of telephones with about eleven to the 100 of population.

* * *

Q. What state gave the most towards charities in 1923? L. C. F.

A. Judging from federal income tax returns, residents of New York state gave almost twice as much money for charitable purposes as those in any other state. The figure was $114,078,501.

New York Day by Day.

BY O. O. McINTYRE.

New York, Aug. 14—The metropolitan dancing world is divided into two classes, those who "dawnce" and those who "den-se." The latter fill the increasing number of moderate priced dance halls that are a throwback to the days of the old Bowery "spiels."

"Here may be found blondined Gerties and truck-driving Jakes trying to escape the dullness of a mediocre world. For so much a dance, gentlemen are furnished ladies to whirl about to the crash of jazz. There is the gleam of red ties and gold teeth.

The girls are mostly those who toil by day in lofts and at basement counters. They appear pathetically tired. But ladies must live. Always is the expected thrill of romance. A rich and lonely gentleman, seeking diversion, meeting the only girl!

Matronly hostesses are on hand to spread a veneer of respectability. "Miss La Motte, meet Mr. Ella." And they swing off on the pollen floor while she listens to the usual story and gives the usual response: "Pick me up at the corner. We close at one."

The dance halls are conducted by alert-looking men, given to diamond studs, who impress one as being able to take care of themselves in emergency, but in reserve are a few second-rate pugilists with hefty wallops for the gentry who indulge "gate crashing."

Ostensibly only soft drinks are served, but as a rule each girl has a friend who knows a friend who can get a fellow to deliver a small bottle of gin, "but if the hostess saw it, I'd lose my job. She's awfully refined."

These dance halls range from those ensconced in former kitchens of Greenwich village homes to those gaudily baroque affairs with mammoth electric signs on Broadway and other streets.

* * *

Exclusive establishments operating branches at Newport, Palm Beach and sundry other watering places admit they are conducted almost invariably at a loss, so far as actual profits go, but the loss is more than covered by added prestige and permanent clientele.

* * *

Manhattan island is widest at Eighty-Ninth street. There was a civic ambition at one time when the city's growth was sweeping northward to make it the most expansive boulevard in town, with a tree-lined mall in the center, but it never materialized. One of the tragedies of New York's growth is that it expanded too quickly to leave enduring spots of beauty in its wake.

* * *

There is an old banking house downtown that requires male employes to wear frock coats during working hours, and a swank tobacco shop on Fifth avenue has employes habited in white linen dusters, but the crowning touch is a ladies' shoe parlor on Broadway, catering to after-theater trade, with clerks in Tuxedoes.

* * *

There is something engagingly frank in this sign in a smart jewelry shop: "Jewelry neither covers nor warms. Its only reason for being is beauty."

* * *

One of the best-known hair shinglers was recently wanted at an early hour to clip a visiting princess. He had been at one hotel for ten years, but no one knew his last name. He had made his reputation on his first name and his last never mattered. I doubt if the most persistent diner-out knows the last name of any head-waiter in town.—Copyright, 1926

Today's Worst Story.

BY WILL ROGERS

The worst joke I heard today was told to me by one of Scotland's most famous sons. He spoke at a dinner the American club gave me in London. Lord Dewar, of Dewar's whisky fame. He is the most famous after-dinner speaker in England. He told a Scotch story.

A Scotch farmer had a beautiful collie dog. A rich American stopping in the town saw him and wanted to buy him. He offered thirty pounds for the dog. The farmer refused. After a day or so he offered fifty pounds, but the old Scotch farmer would not part with the pup. The American got up to seventy-five, then 100, which he informed the farmer was his highest and last offer.

The old farmer still shook his head. Three months later the American in motoring through there again hunted him up and asked him about the dog.

"Oh, I sold him," said the farmer.

"Sold him? Who did you sell him to?"

"To a gentleman fra Westmoreland."

"How much did the dog bring you?"

"Seventy pounds."

"Seventy pounds? Why I offered you a hundred pounds. If any man after this ever tells me about the Scots being canny, I'll tell 'em a few things."

"Scots are canny enouch mon, mak no mistake about that!"

"Are they? Well, why didn't you sell the dog to me?"

"Mon, mon, ken ye an understand, the dog canna swim the Atlantic ocean."—Copyright, 1926.

Who's Who and Why.

ARCHBISHOP MORA Y DEL RIO.

The Catholic leader in the present Mexican struggle between the Mexican government and the church is Illustrisimo Senor Jose Mora y del Rio, archbishop of Mexico, and titular head of the Catholic church in that country.

Archbishop Mora y del Rio is old—past seventy-three—and physically feeble; but his determination is said to equal that of President Calles. He has expressed an eagerness to go to his grave for the sake of his church and his religion.

He is of Spanish descent, tracing his ancestry to the Asturians, a race of mixed Iberians and Goths which inhabits the northern part of Spain. His people came to Mexico 200 years ago.

The archbishop was born in Patzouran, in the state of Michoacan. He received his early education in a Catholic school in the municipality of Zamora in Michoacan. From the seminary he went to Rome to the Pio Latin school, where so many young novices from Latin America study for the priesthood. There he remained eight years.

Since that time he has spent his whole life in Mexico, except four years in exile. During that period following the triumph of the 1914 revolution he lived in San Antonio, Texas.

Today's Events.

Saturday, August 14, 1926.

Fifty years ago today the first wire of the great Brooklyn bridge was drawn over the East river.

Mme. Emma Calve, long one of the most celebrated of operatic singers, reached her sixtieth birthday anniversary today.

A general conference of all independent textile workers' units is being held in New York today to discuss plans for amalgamation.

Hundreds of veterans of the war with Spain gathered in Des Moines today to attend the National encampment of United Spanish War Veterans.

For the week beginning today, the cities and towns of New Hampshire will welcome back their native sons and daughters, this being the official "Old Home" week, the observance of which originated in that state.

True! We Never Thought of That.

New System of Handling Foreign Mail Saves Time

New York Aug 100—Improved mail arriving at this port can now be delivered in Cleveland Washington Boston and intermediate points before passengers arriving on the same liner with the mail have been landed

This service is the result of new equipment installed by the New York Central Railroad which handles all incoming European mail at this port under a government contract

The new equipment consists of automatic electric conveyors which are used in the transfer of mail from the liners at Quarantine and again at the shore

A steamer meets the liner at Quarantine The electric conveyor rushes the mail from the liner to a smaller boat which speeds back to shore On the way back the mail is sorted by government clerks At the shore another electric conveyor is run into the bow of the mail carrying craft and a steady stream of mail bags is passing onto the pier put into waiting cars and trucks and rushed to outgoing trains

The mail is on its way The passenger is still at Quarantine

Stay at Home, Don't Even Attend A Luncheon, Says Rogers

WHOLE FRENCH TAX SYSTEM IS WRONG, CLAIM

Taxation Plan Too Easy Will Asserts; France Lots of Fun

Aug 14—Well all I know about it read in the papers and I am sitting here in a room overlooking the river and wishing and oh so called British Cousins reading the papers all day If you really is worth that In other words, the Farmer is the man in the world that is breaking to beat I don't see calamity howler for it's In most and the war some has none of their business I want to enumerate offhand the things that are posterming this time

And the coal strike is still on and by the time you read this it may be over But I doubt it very much If you ask me I think the Miners will eventually win because the Owners of the Government are doing no thing to break it, only arguing in the house of Parliament Now you know what happens over here when they try to settle anything in Congress Well the batting average of the House of Commons is about the same You see when they had what they called the General Strike over here about three months ago and I happened to be here at the time why everybody pitched in and it looked like the greatest co operation in the world You never saw such a mixed strength everybody wanted to help run street cars and trucks and do every kind of work sailed and all But when it was settled and this coal thing kept on why nobody seems to want to be their places

There Not Miners

Oxford and Cambridge turned out and helped before, but Oxford and Cambridge are not turning out to dig coal So just from a kind of an outsiders point of view it looks to me like the Mining Industry is about the only one that they can't replace except with Miners So if the Miners hold out I can't see how they can help but win

There is only one way to break a strike and that is to put somebody to work where the man that is striking left But they are doing nothing to replace the strikers at all Well it is hurting a lot of different businesses over here and they are losing a lot of Coal trade other Countries are grabbing off that they will never get back even when the strike is settled

But there is one thing about England behmen they won't fix anything till it's just about totally ruined You couldn't get the English to fix anything at the start No they like to sit and watch it grow worse If nothing was growing worse they wouldn't have anything to debate and argue about Then when it looks like the whole thing has gone up salt creek why the English jump in and rescue it They seem to figure that the whole expense of it makes it worth digging out of the fire in the finish

Lots of Comedy

But Lord England is in Alfalfa up to their knees in comparison to France Yesterday another bunch of Prime Ministers and their gangs got the gate You talk about looking for Comedy in Government Why France is just like getting a touch on prohibition there is no credit to it it so easy Ever since I have been over here I have read all that I could find on France and her manners and I have been in their House of Deputies twice I was in there when they threw this Briand out I think it was the 11th time Then this Herriot or whatever his name is this Socialist was the one supposed to go in and form him a Cabinet Well I waited around Paris for a week and he could not get anybody to go in with him so he had to give it up and then they asked Briand to come back So it looked like they would get started again

They got this new finance Minister and he thought he would do something to help put the country on its feet so he jumped in an aeroplane and come over to England and made a deb settlement with England over their war loans Then he went back to Paris thinking he had accomplished some thing great Well there is where he didn't know his business He might know finance but he didn't know his French Ch minute he had promised anybody to put anything he was wron In France If a fellow that went over and made a war settlement thought was a easy for settlement with us on our debt why they like to killed him when he got back Talk about getting that debt part ratified over in France! Say you couldn't even get it voted on The only thing they will do with that will be to kiss it

It certainly was smart of somebody in Washington to think of the idea of not holding Congress there to ratify this French loan because we would have had five hundred Congressmen and Senators the on our hands of old age

Now you will say What is the matter with them? I will tell you what is the matter with them They won't pay their taxes.

Some very big statistical writer has been running a series of articles on France at her taxes They say what they call an income tax but it's purely voluntary You turn in what you want to and they never investigate it I see if it is right or not He showed where big Doctors and Lawyers that were earning millions of francs a year would turn in their earnings as fifty or a hundred thousand francs Their whole system of taxes is out of kilter someway and it looks to me like the only way you will ever get any money for taxes out of them is to deduct it at the source some way What I mean is to take it away from them in some way before they get it If you ever let them lay their hands on it themselves they will never pay it

And Oh Boy how they are hating me! If somebody gets a bad cold it is laid to the grasping nature of Money loving America Mellon just arrived over here and was met by Editorials such as Uncle Andy Shylock What! Is he coming after more and dozens of others like that So we seem to be in pretty Dutch with all the Natives that we were so rude as to lend money to

Loan and Lose

It's the old Gag [and] Nations are not different from Individuals you loan a man money and you lose his friendship

And the funny part about the whole thing is you go anywhere like the races or the Opera or any place where the prices are high and you will see it crowded and people spending more money than they do over home I have clocked more big Rolls Royces and Fiats over here than I ever saw big Cars at home There is lots of them over here got plenty of dough but they are not giving any of it to their Governments to pay out the taxes

So don't use too much sympathy about them not being able to pay They are able to pay if they only get the taxes out of the right ones The whole debt problem in all these Countries reverts back to one thing and that is our coming into the war They say we come in for one thing and we say and know that we come in for another In other words what we did has never been appreciated They think we should have declared war on Germany two days before they started to march into Belgium So I hope these people that are always trying to fix the world will learn something out of the STAY AT HOME AND TEND TO OUR OWN BUSINESS! DON'T ATTEND A CONFERENCE! NOT EVEN A LUNCHEON!

A STORY OF YOUTH AND LOVE

BY KATHARINE BRUSH

CHAPTER XIV

And do you like the pictures

They were sitting close together on the divan Yvonne's head against Jock's arm He looked down at her marveling Her child hair her face those long dark lazy lidded eyes He thought Pictures! There's nothing like the stirring to photograph a banner You get the lines but not the glory It's like me when I try to express her in words colorless and dead A painter or a poet could do her justice but not a camera man nor a mute feel like me

He said They're beautiful pictures of you'

Which do you like best'

Yvonne sighed glancing at it O' course, she said as though she spoke to no hearer The one that looks the youngest

Birdseed'' snorted Jock You talk as though you were old'

And dont you think I am'

'I think you're about my age

'And how old are you Jock Hamill?

Twenty two

She smiled dreamily How nice to be twenty two!'

Jock thought, She may be a year or two older

Perhaps twenty four She can't be any more than that

Perhaps twenty four She can't be any more than that

He kissed her fiercely as though through her lips he would impress her mind with the total irrevelance of comparative ages

Then talked Or rather Yvonne talked Jock sat silent looking into her eyes You could write a book from the things in Yvonne's eyes Remembered lives' he speculated Lost twilights Music and wisdom and sun and shade and pain He held her hands He felt them flat against his and folded them into fists and chuckled over their littleness and buried his nose in their perfumed palms She had classic hands Narrow artistic fingers and a thumb that could be pulled backward until it formed a pinkish white arch

He stroked her hair Sometimes it was bobbed and at other times you were sure it wasn't She fixed it in so many ways all of them enchantingly becoming

His mind was too full of her to concentrate on the impersonal things she was saying But presently he heard —because I'm going away tomorrow—

He sat up with a start 'You're what

'I'm going away tomorrow

'You're not'

'Yes I am I'm going to California

For how long' he groaned

Oh—I don't know exactly Several months I suppose

Several months' Several—months! Jock felt joy ride out of him on these two words like a fairy princess on horseback leaving only an ache and an emptiness Several months

And do you care so much, Jock Hamill

Yvonne was grave and troubled now looking at him She put her hand against his face and brought it down to hers Bittersweet that kiss and long long because there would no be many more

Yvonne you can't go

'I must my dear

But why? Why

I have to that's all'

'You mean you want to!' Jock accused angrily You're going because you want to go and I—I He broke off unable to express himself He drew away dug his chin into the palm of one hand and glared ahead of him He would have been horrified to know how like a sulky little boy he looked

But of course he added it doesn't make any difference to you how I feel'

It makes a tremendous difference Jock Hamill

He glanced at her sharply 'You mean you won't go after all?'

I mean that I rather wanted to go before said Yvonne and now I don't care to go and I'm sorry I have to since it hurts you'

Then don't Why do you have to' Don't go' Stay here with me—marry me— He was holding her close again crushing her Yvonne why don't you marry me? Don't you care a little about me Suddenly he reminded him self of Molly Those words were Molly's and that hurt horrifying fact was Molly's And what a fool Molly had seen it!

His arms dropped away and he put his head in his hands God this world' he muttered No justice Men love women who don't love them and are loved in turn by women they don love—

Dear said Yvonne I do love you Quite a great deal I tell you that the first time you were here and it's true if I also told you I can't marry you it's a true too There are reasons a lot of reasons many—excellent reasons but not caring enough about you isn't [illegible] there

Well what is one of them' You're married already You say you love someone else and better What is it? This damn vagueness is leaving me cater Yvonne' Don't you think it's about time you told me a little about yourself?

For the fairest minute Yvonne seemed in water and Jock thought Now I'm going I know But when she spoke it was to say After Yvonne I think I'll tell you everything But not to day I want to leave you thinking of me sweetly

Nothing you could tell me would ever change the way I think of you Yvonne You know that

I hope that She made a inscrutable distinction

There was a silence and then she rose and went out of the room Jock exploded, brooding Several months It had a ghastly sound months without Yvonne Without beauty without color without flame A stretching nothingness An aeon of misery to be got through heaven alone knew how But she cared a little, and that was something And when she returned she would tell him

Presently he became restless His last afternoon with her and again he was waiting here alone squandering not too many priceless minutes

Yvonne' he shouted

Yes?

'Come back here!'

I will in a second I'm putting a hat and coat on'

'Why what for?'

Because we're going to take a walk in Central Park

And they did Somehow people always did what Yvonne wanted Until evening dropped down on New York and the buildings were checkerboards of light and darkness they walked, and talked lightly because Yvonne wanted it to be lightly and grew pink with chill and sparkling eyed

Isn't it glorious' breathed Yvonne

Not as glorious as being back at your apartment'

Her laugh was a chord from a gay sweet song Don't you like Central Park?'

I don't like any public place, with you on our last—'

She intentionally misunderstood him Now there's a pretty compliment!' she mocked of course there are men who don't care to be seen with me, but I didn't think the list included you!'

Dear nonsense of course But Jock asked she wouldn't not say such things

Then walked slowly sauntering A couple to make tired faces lift and soften as they passed the boy so young so quiet to look at the girl perhaps not quite as young but exotic picturesque in a chinchilla coat and a hat that cast fluttering shadows Jock held Yvonne's arm tucked close to him, and his eyes never left her They caressed her did her homage

Quicksands of Love

BY ADELE GARRISON

I was grateful that Philip Veritzen had turned away from me to lay the sheaf of papers on the table when he had voiced the flattering but embarrassing comment upon my appearance It enabled me to pull myself together but it was a query which I put to him in my wrambled haste to pretend that I had not heard his encomium

What do you wish me to undertake next, Mr Veritzen I heard my self asking in a thin far away voice

He turned and surveyed me smiling

Nothing for a week he said while I mentally banished to the limbo of falsehoods the comments I had heard as to his being a merciless taskmaster Rest and do anything you like he went on There is internal evidence here—he tapped the sheaf of papers—that you have not adhered strictly to union hours and you will be in far better shape for your next task if you rest now'

Madge Gets a Holiday

There was that in his smile which told me that this man who never spared himself, and who was reputed to hold all who served him to the same relentless regime understood and appreciated the whole hearted application I had given to my task It was an unlooked for and appreciation for which I cried far more than for the prospect of a week's rest although my tired nerves made that prospect a most welcome one

Of course you understand Mr Veritzen went on and audibly his tone no longer was invested with the personal tone, but held his former brisk authority that if we were in the throes of an immediate production I could not accord you this week Then we all work not till we drop for on one does that —suddenly I glimpsed the contempt of the man for anything short of his own iron will and nerves— but until the task is fully done and we have earned our rest This pet production of mine however for which I have planned so long is to be a leisurely thing I am rewarding myself with it, and I do not intend to hurry it There fore you can take your week with a clear conscience I not only grant it, but I command it You are new to this work as yet We must break you in gradually'

Again his smile flashed out illuminating his dark face so that I agreed with Dicks estimate of him as the handsomest most fascinating man in the city Then he tapped my sheaf of papers again

You have copies of these at home?' he asked

Not of the script which you gave me I answered but I have copies of all my own notes'

'I will send a messenger"

He pushed a button upon his desk and almost immediately there entered a slender girl with a face like a Madonna all had dusky unbobbed hair parted in the middle and drawn down over her ears into a classic knot at the nape of her neck I remembered a gossipy newspaper article I once had read stating that Philip Veritzen adoring beauty and hating ugliness would not permit anyone in his immediate entourage who did not possess personal pulchritude to a marked degree and reflected that the appearance of this girl reflected an master secretary bore out the statement

Will you please get me a copy of Flaubert's Charlemagne script? he asked of the girl without speaking went noiselessly out of the room returning almost immediately with a copy of the script from which I had worked She laid it upon the table waited perhaps a second for any further order then went out again as unobtrusively as she had come The procedure was typical I surmised of the perfectly oiled machinery which served Philip Veritzen and I felt a little thrill of pride that I now held a place temporarily at least important in the famous organization

He held out both copies of the script to me

Take these home he directed, and copy upon the unmarked one the numbers you wrote on the one you gave me That should take you less than an hour and will be the only thing I shall require of you for a week I will send a messenger to your home for it tomorrow Now to the next thing Can you draw'

"Sow an Act and Reap a Habit; Sow a Habit and You Reap a Character; Sow a Character and You Reap a Destiny."

No weightier truth was ever uttered It is as true in the financial realm as in the moral or social Look about you and spot the men who are doing things worth while—men of fixed habits and character—and you will be able to trace the line of their development back to habits formed in boyhood No great financier ever evolved from a spendthrift boy Here is a point no parent can afford to evade If you desire your child to be a figure in the business world you cannot start him on the way too young The best of it all is that the very habits which make for sound business development are the best kind of character builders

M. Waddell, President Roy H. Waddell

Veteran Marion Compositor Declares Newspapers Were Luxuries Years Ago

Newspapers were a luxury in those days said Sam F Smith S Higbee one of Marion's oldest newspaper men as he pointed to a very yellow and tattered paper dated Thursday Dec 29 1864 bearing the name The Marion Independent *Here in the print one officers these days won't know what work is* he continued

When asked just what position he held in the printing office of the Independent he smiled and said *I was the devil* the entire force one day's work began with starting the fires and *continued* with type setting by hand and running the press and finally terminated in wrapping out

As a local I received [illegible] $1.50 a week the first year $2.00 a week the second year and the third year my salary was raised to $ per week This was the *general wage* all over However if we were real hot enough and pressed we'd receive a raise might even soar to the sum of $10 per week in time

The proud owner of the old edition of the paper which he had formerly served *as a boy* [illegible] *recess* smiled as he pressed the page with firm straight *lines* and *interesting* news stories so straight [illegible] *and* [illegible] mal as to appear human as type But still we could see he was justly proud of that [illegible] *hardly help feeling* pride in [illegible] of Marion [illegible] about a really big thing

The paper was originally known as the Whig and was managed and *edited by George Crawford* one of Marion's pioneer citizens Later S R Dunkle was taken in with Mr Crawford

Mr Smith went on telling the interesting *facts* connected with the paper and finally tenderly turned one of the sadly frayed pages and began discussing the paper itself The first page was largely made up of a novel *Ellen* [illegible] *Temptation* by Horatio Alger Jr Advice on the raising of crops was also given on the front page

Two Resolutions

One section of the paper contained two resolutions which were headed by this explanatory note

"The following resolutions should have appeared two weeks ago but the copy was not handed in in time for the *first* week and we forgot it the second

This shows the intensely informal note carried out in the presentation of news

All *announcements of* marriages were filled with sincere wishes for peace and prosperous and happy lives

The marriage of Mrs Sarah Randall and Amos Boynton both of Marion Township was announced in this particular issue

Here and there were several items of historical interest one of which was President Lincoln's proclamation calling for 400,000 more men An editorial appeared with the item which advised the people of Marion to raise the quota of Marion Township to $16,000 It even warned them saying

Do not say you are over age—your boys are not and if you have no boys your property is not over age and it needs your protection it is your duty to give money to help protect it Don't whine and say you won't give because some one else will not give as much as you think he ought to The famous message from Sherman to Lincoln also appeared It follows

Savannah Ga Dec 22

To his Excellency President Lincoln I [illegible] to present to you as a Christmas gift the city of Savannah with 150 heavy guns and plenty of ammunition and also about 25,000 bales of cotton

(Signed) W T *Sherman*
Major General

Advertisements

The advertisements in the tattered paper Mr Smith seemed to find of equal interest *He* pointed to the ads of several former prominent Marion merchants

Among the ads which were featured in this old edition were those of W A Lauer jeweler with bargains at the sign of the Big Gold Clock

Other ads which appeared in the old weekly included John Merrill merchant tailor Throckmorton & Drake *dentists and Smith Teeter proprietors* of the Leland Hotel East (State) and Center sts

One of the most humorous ads was that of John F Davids which advertised all various articles and ended his ad with except 20,000 other notions Among them were *mentioned ladies* [illegible] *trunks baskets mourning* [illegible] *goods hair shakers steel skirts* Among the groceries bedcords and stiff ons were enumerated Another of the ads offered information sent free of charge that would enable you to [illegible] happily speedily and irrespective of age wealth or beauty"

The paper carried the price two dollars per annum invariably in advance in huge letters at the top of the page

Potatoes and wood were often used in payment Mr Smith said

Turning over the last page of the old paper with a sigh Mr Smith declared "I had never done any editorial work *in his long career as a* newspaper man

Although having never contributed anything in writing to a newspaper, Mr Smith has engaged in literary work in his leisure

Several homely dramas which he wrote and produced years ago are still remembered Among them were From Street to Mansion' The Operator's Mistake Negro Among the Clowns and Stubb and Tubb

Smart New Rumble Seat For Sport Roadster

Rumble seats are justly popular. They add a smart, rakish touch to roadster lines, and increase the carrying capacity by two passengers.

That Dodge Brothers Sport Roadster now provides this convenience, will be welcome news to thousands.

Like the main seat, it is deeply upholstered in gray Spanish genuine leather, and the seat back is high and well pitched, providing unusual comfort.

When closed, the rear compartment is absolutely waterproof, even in rainiest weather.

Ample space is provided behind the main seat for golf clubs, suit cases, tennis rackets and similar luggage.

Brilliant pheasant green lacquer body and hood, strikingly in contrast with the tan top, black fenders and full special equipment, complete a general color scheme of exceptional dash and charm.

First intimation that dissension was brewing in the world's champions ranks came yesterday when the vanguard of the team returned from its eastern trip and it was learned that Carey Bigbee and Adams had circulated a petition asking that Clarke be kept off the bench for the good of the team

Dreyfuss Manager Bill McKechnie and Clarke were in conference most of the day and when they emerged from Dreyfuss office at Forbes Field a telegram was sent to other members of the team enroute to Pittsburgh from the east to report at the club upon their arrival

Traynor Appointed

Following the meeting of the players with club officials Dreyfuss made the startling announcement affecting the three veteran players

Pie Traynor was appointed field captain to succeed Clarke

Notwithstanding the fact that went up *from fans and baseball experts* that such drastic discription of the Pirate ranks at this critical stage of the National League pennant race might result disastrously for the team's chances of copping their second consecutive flag the players took another attitude

Watch the team buckle down now that all players have awakened to the *fact that their personal popularity alone* does not get their jobs one player said

Business Men Win Pennant in Commercial League by Defeating Banks, 5 to 3

Isaly Dairies Trim Kappa, 5 to 3; Eagles Trounce Stars, 5 to 1 Burson Hurls One-Hit Game and Kiwanis Win Over Mail Carriers by Score of 8 to 3

THE Business Men clinched the pennant in the Commercial League last night by *defeating the* Banks by the score of 5 to 3 at the Huber diamonds

The game was a nip and tuck affair all the way with the Banks playing good ball behind the effective pitching of Starr The hitters knotted hits in the fifth inning for three runs and the game Mesenger pitched for the winners Pitchers Price Seifert and the Rice brothers featured the *battling*

Hurls One-hit Game

Behind the effective pitching of Burson the Kiwanis team defeated the Postoffice outfit by the score of 8 to 3 at the Marion County Lumber Co diamonds Burson allowed the loser only one hit during the game while errors secured *for the victors* goals against him

Gutmann Hane Burson Dennis and Lawson led the hitting attack for the winners

Isaly bested Rank in a hurling duel and the Isaly Dairies cage through with a 5 to 3 victory over Kappa A P Hoffick Isaly Hinkha Shultz and Wells were leading sluggers

Stars Lose

In the last game in the loop at Lincoln Park the Marion Stars went down in a 5 to 1 defeat at the hands of the Eagles Dudley pitching for the winners had the newspaper men at his mercy in all innings except the 1st when the Stars bunched hits for their lone run of the game Loose playing coupled with Gibson's wildness was responsible for the defeat of the Stars Murphy Sowles and Potter were the individual hitting stars

TILDEN TO PLAY JOHNSTON TODAY

Faces Vincent Richards in Second Match of Tourney

BY DAVIS J WALSH

New York Aug 14—The hour is at *hand the die is cast the Rubyfruit* is tapping gently in the foreground

For months we have been regarded with opinions pro and con as to whether William T Tilden 2nd will be no more but the next 24 hours will remove the issue from the realm of theory to the certainty of fact It will cease to be a question and become an answer

Today at Forest Hills Williams will engage Bill Johnston in one of the singles matches of the East West series Tomorrow at Ilye he will face Vincent Richards in the final round of the southern New York state championship

If Tilden can live this situation down he must be accepted as the 1926 model all the dazzling dueling champ testuous tireless and always tempermental master of court play If he can't he isn't

At his best he could win from both But the insinuation is general that he isn't at his best and never will be *again*

The United States has won the Davis Cup nine times Australasia teams have lifted the famous tennis trophy six times and British Isles teams five times

SANGOR DRAWS IN BOUT WITH CHAMP

Chicago Aug 14 Charley Phil Rosenberg's world's bantamweight championship is intact today although it was not without a coat of varnish in a fifteen round session in the wrestling of Jim Mullins outdoor show at the Cubs Park last night

Charley exhibited an unpopular but not unfair draw in a 10-round bout with Joey Sangor Milwaukee mauler who daunted unbeaten opponents with a well drilled left hand

Ethel LaMarche featweight champion of the universe the other headliner on the card delivered as per pre battle advices and won a well earned decision over Emil Fallon Salt Lake City contender

Neither championship was at stake as the boxers did not make the championship weight Both bouts went 10 rounds

LA MARCHE PLAYS HANE IN FINALS OF TOURNAMENT

Meet for Marion Country Club Golf Championship Sunday

CARL LAMARCHE will meet H W Hane in the finals of the Marion Country Club golf championship at the course Sunday The final match will be played in 18 holes

LaMarche defeated H H Smith in the semi finals of the tournament one up in 18 holes The match was closely contested all the way the semi finalists being tied at the end of the regulation 18 holes of play and an extra hole was necessary to decide the winner

Sixes Low Score

In the other semi final match Hane defeated C L Gorton five up and three In defeating Gorton Hane turned in a card of 81 which is low scoring made at the local course this season He had a card of 42 for the first nine holes of the 18 hole match but played brilliant golf to come through with a 38 in the final nine holes

In the women tournament Mrs H H Stolt defeated Mrs L D Keller in the semi finals and will meet Mrs Smith in the finals of the tourney next week

LAST NIGHT'S FIGHTS

New York—Davey Abel Panama featherweight outpointed Wee Willie Spencer Chicago Jack McFarland New York won on a foul from Jack Lester Philadelphia

Bucyrus New York Central League Champions to Play Athletics Here on Sunday

Team Which Came Close To Defeating Marion in Baseball Tournament Will Oppose Local Club at Lincoln Park Main To Oppose Either Stuhl or Reese

ONE of the fastest baseball games of the season is expected to be played at Lincoln Park Sunday afternoon when the Marion Athletics engage the fast Bucyrus New York Central League championship team

Several weeks ago in the baseball tournament here the Bucyrus team came close to eliminating the Athletics from out of the running in the tournament It was only through a great finish put up by the Athletics in the final innings of the battle that enabled them to come through on the long end of a 3 to 1 score Bucyrus led the Athletics throughout the greater part of the contest until the local lid nearly tied the count and won out in the last inning

Visitors Have Big Things

According to word from Bucyrus the neighboring city club is coming here well prepared in the way of material and moral support and hopes to turn the tables on the Athletics in the second meeting A large number of Bucyrus fans are expected to see many of the team to Marion

Either Reese or Stuhl will be on the mound for the visitors Both have been pitching a winning brand of baseball this season Stuhl hurled against the Athletics in the first game here and will more than likely be the mound choice of the Bucyrus *outfit* Manager Bacon is planning to use Main against the visitors

Changes Made

Bucyrus Outfielder will cover one of the garden positions with the Athletics for the first time while Umbaugh Umpire Rhodes at first base, Schaler was released this week

Bucyrus has lost but two out of 11 games played up and out of the New York Central League this season, defeating the Blues of Baxter Charleston Rapids Columbus Toledo and other teams

In a preliminary game the Blues will meet the fast Claridon team The game will get underway at 1 o'clock with the feature contest being called promptly at 3 o'clock

ORDERS WIN OVER APPRENTICES 1-0

Office and Engineers Split Twin Bill in Shovel Loop

The General Office and Engineers split a double header played in the Normal division of the Marion Steam Shovel Leagues last night at the Shovel grounds The pen pushers won the first game 4 to 2 but lost the second by the score of 5 to 1 Perkins pitched both games for the Engineers

In the third game in the loop the Apprentices lost to the Orders 1 to 0 Snyder fanned Bacon in a hurling duel although Bacon allowed only five hits while Snyder granted six singles

TWO MT. VERNON MEN ARE HURT IN ACCIDENT

Auto Swerves Off Concrete and Goes into Ditch Near Cardington

Mt. Gilead, Aug. 14—Everett George of Mt. Vernon is in Mt. Vernon Hospital, with injuries believed serious, and Frank Ware, also of Mt. Vernon, is nursing cuts about the face and body, as the result of a crash near the noted east of here on the *Chesterville rd.* late Thursday night.

In attempting to pass another car, the edge of the concrete of the road surface caused the car in which the *men were riding to swerve* and upset in to the ditch. Passing motorists brought the men to Mt. Gilead, where they were attended by *Dr. C. S. Jackson.*

The two accident victims were then taken to Mt. Vernon in the ambulance of Phillips & Son, where the condition of George was reported serious because *of internal injuries.*

The touring car in which the men were riding was demolished.

THREE CARS FIGURE IN MT. GILEAD ACCIDENT

Crumpled Fenders and Blow-out of Rear Tire Damage to Wagner Auto

Mt. Gilead, Aug. 14—Cars driven by Wallace Wagner, Guy Shipley, and a service truck of the Bell Telephone Co. figured in a crash at the south square Thursday night, when the truck stopped before making a lefthand turn westward at the south square.

Wagner and Shipley, each following close behind as *they came north* in S. Main-st, caused a three-car line-up.

Crumpled fenders and a blowout of a rear tire on Wagner's car were the only damages sustained.

Westfield News

Westfield, Aug. 14 — The Gleaners' class met with Mrs. Vivah Kyrk Wednesday for an all day meeting. The time *was spent sewing.*

A business and devotional meeting was held in the afternoon.

A fine dinner was served, buffet *style,* at the noon hour. Those present were: Mrs. A. B. Miller, Mrs. Effie Brown, Mrs. Carrie Worline, Mrs. Mina Howe, Mrs. Minnie Fargo, Mrs. Dora Knachel, *Mrs.* Elva Knachel, Mrs. Ollie Oberst, Miss Nina Doublkin, Miss Edna Fargo, Mrs. Vadah Lloyd, Mrs. Hettie Peak, Mrs. Jennie Shaw, Mrs. Vivah Kyrk, Miss Esther Kyrk, Bette and Kathryn Howe, James Howe, Cecil Conklin.

The Aid Society will hold a picnic Tuesday, Aug. 17, along the river.

Miss Marie Evans of Ellson was a guest Thursday of Miss Pauline Osborn.

Mrs. W. Davis, of Columbus, is visiting at the home of her uncle and aunt Mr. and Mrs. George Schaaf.

The Kensington *Club will hold a* picnic Friday night, August 20th.

Carr Land Fraud Case Once Again Set Back Indefinitely; Absence of Witnesses Cause

No Date Set for Hearing After Fourth Postponement; P. F. Carr Charged with Attemping To Sell Walker Farm; Jurors Are Told Not To Report Monday Morning

Mt Gilead, Aug 14—The Carr land fraud case, originally set for May 4, has again been continued, and prospective *jurors have been notified* that they will be needed next Monday, when the case was to have been heard.

The case is that of the State of Ohio versus P. F. Carr, in which Carr is charged with fraudulent conveyance of land, and has been continued for the fourth time, no date having been set for the hearing of the case.

Carr was indicted by the grand jury for an alleged attempt to sell the Walker farm, owned by Vincent Walker, who was convicted of the murder of *C. P. Zeger, a purchaser,* last June, and who is now serving a life sentence in the Ohio State Penitentiary.

G. W. Cupp and D. H. Stevens jointly indicted with *Carr,* have been released on bond, as has Carr.

Carr on Bond

Carr was released two months ago on bond of $3,000 and is believed to be in Ft. Wayne, Ind., his home.

Absence of witnesses on both sides is the cause named for continuing the *case. The clerk of courts of Grant* County, Ind., is unable to be present, it is said.

The case was first continued from May 4, because of the illness of Lida Perry, *formerly of Dayton,* when the defense asked the postponement. June 21 was the date then set, but the case *was continued,* and on July 12 was again continued because it was necessary for the defense to obtain the deposition of C. A. Boatlick, said to be residing part of the time in Florida *on depart of the time in Hot Springs,* Ark.

Monday, Aug. 16, was then set as the date for the case. Continuance of the case indefinitely is now the latest development.

...before it could be carried out, ...zy Fox, who had been hiding in the bushes, wondering why Uncle Wiggily was leaping about in such a funny way. The Fuzzy Fox decided to take part in the game.

"But I want to catch a rabbit, not a feather!" growled the Fox. He watched his chance, and when Uncle Wiggily tried to catch the feather which the friendly swallow dropped, ran near the bush, out sprang the Fox.

"I've got you!" snarled the bad chap.

But did he have Uncle Wiggily? Indeed, he did not. For like a storm of

"Will this do?" asked the rabbit

wings the swallows swooped at that Fox and with their beaks they picked him on his nose and in his eyes so hard that he howled and ran back to his den.

So he didn't get the bunny, and Mr. Longears caught the feather as it floated to the ground and so he won the game and the swallows were glad. And, if the circus elephant doesn't step on the peanut and make it look like a pancake, I'll tell you next about Uncle Wiggily and Buddy's bike.

SUICIDES IN BUDAPEST AVERAGE TWELVE DAILY

Budapest, Aug. 14—Unable to stop the increasing number of suicides in Hungary, which now averages twelve daily, by law the Hungarian government has established first aid stations throughout the city of Budapest. The stations are open and in charge of a nurse day and night.

Special facilities for saving life have been established along the Danube in both Buda and Pest. A river police boat patrol has been started and ambulances are kept at all of the bridges, since it is from them that most of the would-be suicides throw themselves into the Danube.

PAGING 250 GALLONS

San Francisco—Six years ago prohibition agents raided the home of Daniel E. Anglum and seized 250 gallons of whisky. The federal district court now has upheld Anglum's plea that his house was entered illegally and ordered the liquor returned—if it can be found.

FIRST ROBBERY OF YEAR

Caldwell, N. —Police are investigating the first robbery in this town in a year. Crackesmen rifled the Caldwell steam laundry safe and escaped with $124.

Learn to Swim

The season for fishing, boating, and swimming is here.

Swimming is always a health-giving sport and often a life-saving accomplishment.

Learn to swim, or increase your ability if you already know how. You never tell when this knowledge will be essential.

The Washington Bureau of this paper has for distribution a booklet on swimming and life-saving. It was prepared by the American National Red Cross and contains instructions for beginners and advanced students, together with a number of swimming and life-saving tests.

Send for your copy of the helpful booklet today. Enclose FOUR CENTS in stamps to cover return postage and handling.

LIGHT SUPPLY IN WEST HITS OHIO HOG TRADE

Cleveland Market Active as Week Closes; Calf, Sheep Supply Drops

Cleveland, Aug. 14—Hogs—Cleveland's hog supply was on a par with last week but a lighter supply in the West was largely responsible for a more sentimentary trade. Prices declined a quarter Wednesday, but regained this loss on Friday. The week closing rather active with heavy hogs selling at $12.75; light mixed $13@13; pigs and light lights $13@25.

Calves—Native calf receipts were light but Westerns arrived in sufficient numbers to bring the supply up to last week's figures. The trade has been active on handy weight natives, but heavy calves have been moving slow. The week closed with best handy weight natives selling generally at 15@ cents which shows a gain of around $1 for the week.

Sheep and Lambs—Receipts lighter than last week; up until Wednesday the trade was slow with some spots showing declines. From this time on the trade showed more action and by the end of the week the early losses had been regained, best natives selling on the close at $13.25.

Cattle—Receipts 200 less than last week, and the market generally has been more active, prices remaining steady. Bulk of the supply continues on the common order, only a few good steers on sale. The week's top was $10.50 on one load of choice yearlings.

STOCK MART LEADERS CONTINUE ON UPGRADE

General Motors and U. S. Steel Head Forward Movement

MARKETS AT A GLANCE

Railroad stocks firm; industrial stocks firm; domestic bonds steady; foreign bonds steady; grain irregular; cotton steady; rubber steady; sugar dull; copper steady; oil steady; steady; pig iron steady; foreign exchange steady.

New York, Aug. 14—The high-priced industrial and motor stocks continued without interruption the enthusiastic forward movement in prices which featured Friday's close.

Under the lead of General Motors and United States Steel, bullish forces marked up prices from 2 to 10 points in the first period today, after which the pace slackened somewhat and the volume of trading declined.

Strength in General Motors was attributed to the very favorable impression created by the awarding of the cash dividend this quarter on the additional stock given as a stock dividend.

Being under similar control, United State Steel will doubtless follow the melon-cutting example set by General Motors, according to the boosters of steel stock in the financial district. Enthusiastic buying of that stock today lifted the price to above 135, only fractionally below the record price for all time. The independent steels continued to attract good buying as also did the equipments and the coppers. American Smelting rising buoyantly to 150, the highest price of the year.

There were no disquieting week-end developments and nothing to detract from the splendid performance of the country's industrial and commercial enterprises. Wall-st approves heartily of the advance in the re-discount rate of the Reserve Bank, reflecting as it does need for funds in the expanding business of the nation.

Today In Marion Markets

Groceries, Produce, Meats, Grain, Livestock

Prices on homegrown tomatoes "hit the sky" today when local dealers found difficulty in purchasing their supplies. They were selling at two pounds for 25 cents on all vegetable counters in Marion.

Tomatoes yesterday were selling as low as four pounds for 25 cents in Marion while a few local dealers were retailing them at eight cent a pound or two pounds for 15 cents. The price was on the downward trend last week but after last Saturday remained steady until today.

Blackberries Drop

Blackberries on local fruit markets were today selling at 20 cents a quart, a drop of five cents under the mark which has prevailed all week. One local dealer yesterday afternoon was offering blackberries at 15 cents a quart.

A few Marion markets today were selling large green mangoes at 10 cents each. Other dealers continued the original price of five cents for mangoes of the smaller variety.

No Lima Beans

No home grown Lima beans were in evidence on local markets today although demand for the product was great.

Usual special Saturday prices on meats and butter were offered by Marion meat markets today.

Sausage was retailing at 10 cents a pound, hamburg was selling at 14 cents, and lard was retailing at 16 cents. Smoked ham was offered at 35 cents, four cents under the usual mark, while bacon was selling as low as 23 cents a pound.

Practically all meat prices today were special offers and will return to the regular level Monday.

Butter sold today at 41 cents a pound.

WILL ONE SUCCEED THE OTHER?

The next movement in Japanese politics may easily reverse the positions held by the two statesmen seen here together At the left is Mr Tokonami leader of the opposition in the Japanese diet at the right Premier Wakatsuki A shift in public opinion would doubtless put the opposition party in power and make Wakatsuki the leader of the opposition

FRIDAY, THIRTEENTH, JINX VISITS MIDWAY LUNCH

Glass Shelf in Enclosed Rack Lets Go Damaging Pies and Cakes

Whether it was the fact that the combination of the thirteenth day of the month and the appearance of Gen Pershing in the city or just plain hard luck that caused the transfer from the Public Square of the Midway Lunch is unable to say but certain it is that on that day the lunch was moved

As usual a crowd was taking its noon hour when there came a crash breaking of glass

Patrons left their food to find that a shelf containing glass dishes and glassware had broken and the foregoing pies and cake

Friday the thirteenth George a custom evidently

Geo Boos Lunch his similar grinnell and ordered another glass shelf

Oakland leads again

with the

Rubber-Silenced Chassis

Oakland has pioneered many outstanding motor car improvements, including Duco Finish, interchangeable bronze backed bearings and the Harmonic Balancer, but none more vital and valuable than the newest Oakland achievement—the Rubber-Silenced Chassis

The Rubber-Silenced Chassis is exactly what its name implies—a chassis refined to a supreme state of quietness—a chassis freed from the disturbing noise and rumbling experienced in ordinary cars—a chassis that permits passengers to ride in quiet, cushioned comfort

This remarkable, new feature is exclusive to Oakland No other motor car has it.

Oakland Six, $1025 to $1295 Pontiac Six companion to Oakland Six, $825, Sedan or Coupe. All prices at factory Easy to pay on the General Motors Time Payment Plan.

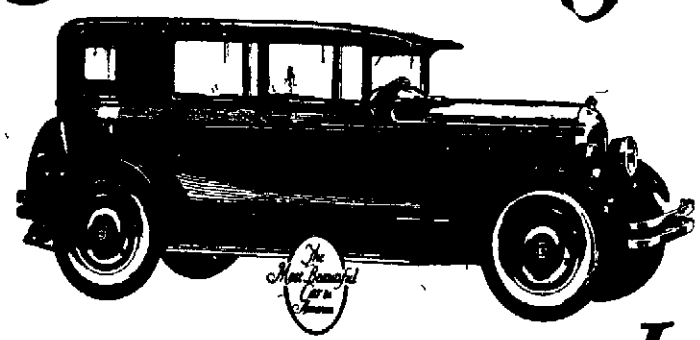
THE New Paige



...nearly a thousand dollars Less

THE newest Paige cars sell for nearly a thousand dollars less than last year's Paige models And they do it because Paige is building and selling five times as many cars this year as last. Indeed, Paige sales throughout America registered a gain of 551% in the first six months of 1926

But even the new low prices of these Paige cars will not delight you as much as the wonderful performance they display. They are speedy cars, powerful cars, economical cars. Acceleration is instantaneous, while the slightest pressure on their Paige-Hydraulic 4-wheel brakes brings them to cushioned rest immediately. A demonstration will cost you nothing—call or phone—soon.
